

Actuarial Valuation as per International Public Sector Accounting Standards (IPSAS).

We believe that employees are the backbone of any company. The employees can only work effectively when they know they will be rewarded well for their services.

Keeping this in our view, our team of technical experts provide actuarial valuation that are necessary to assess long term sustainability of a defined benefit plan and can serve as a decision making tool for plan sponsors.

We have a vast experience of handling actuarial valuations for listed and unlisted companies under International Financial Reporting Standards (IFRS) and International Public Accounting Standards (IPAS).
